Behavioural story bank

From The Data Science Interview Playbook by Mathew Kariuki. Use it with Chapter 13. Aim for six to eight stories that together cover the themes below.

Themes to cover

☐ A technical success I'm proud of
☐ A mistake I made and fixed
☐ A disagreement with a stakeholder
☐ A vague or ambiguous request
☐ A time I influenced a decision with data
☐ Prioritising under pressure
☐ Learning something new quickly
☐ Explaining something technical to a non-technical audience

Story template (copy once per story)

Title:

Situation (two or three sentences):

Task (what I was responsible for):

Actions (what I did, in order; say "I", not "we"):

1. 2. 3.

Result (with a number if possible):

What I learned or would do differently:

Questions this story can answer:

Likely follow-up questions and my answers:
